Logitech's most advanced webcam yet.

960-001529 (graphite AMR)
960-001530 (graphite EMEA)
960-001531 (graphite AP)
960-001532 (graphite CHINA)
960-001533 (graphite JP)

Equip advanced employees.

4K resolution with ultra wide FOV

Superior Ultra HD 4K resolution with ultra sharp image & video.

Adjustable dFoV options of 65°, 78°, and 90°.

Face-based image enhancement

AI-powered RightLight 5 takes auto light correction further with face-based image enhancement that provides a more natural image, even in challenging lighting conditions.

¹ This feature requires Logi Tune

Remote management

Logitech Sync offers a secure and scalable approach to remotely manage Logitech devices.

Show Mode

Allows users to easily include physical items in video calls by simply tilting the camera down to present sketches, objects, and work in progress.

This feature requires Logi Tune

RightSight auto-framing

Automatically detects¹ and centers users in the image so they can move during meetings without leaving the frame.

Integrated privacy shutter

A simple dial on the lens ring makes it easy to open or close the privacy shutter.

Certifications and management

Certified Alliance partners

See the [latest certifications](#).

Management

Logitech Sync¹ supports company-wide deployments at scale. Monitor and manage personal collaboration devices from one single platform with Sync

¹ Requires Logi Tune downloaded in individual devices

Sustainability

Low carbon aluminum & Recycled Plastic

MX Brio 705 for Business combines low carbon aluminum and a min. 82% of post-consumer recycled plastic in the plastic components* to create an elevated video meeting experience and deliver sustainability with durability.

*Excludes packaging

Responsible packaging

MX Brio 705 for Business's product packaging uses FSC™-certified paper materials and has been "right sized" to reduce wasted airspace and minimize the shipping footprint.

Carbon neutral

MX Brio 705 for Business is certified carbon neutral. This means the carbon impact of the product and packaging has been reduced to zero due to Logitech's investment in carbon-offsetting and removal projects.
